FULL SERVICE.BMW Service Inclusive er en servicepakke som dekker normale services slik de fremkommer på bilens serviceindikator.BMW Service Inclusive Plus består av det samme omfanget for vedlikehold som BMW Service Inclusive og inkluderer i tillegg slittedelsreparasjoner.Serviceavtalen følger bilen. Det betyr at du får servicehistorikk fra en autorisert BMW servicepartner i tillegg til at en eventuell ny eier får gleden av det som gjenstår av avtalen. Du kan forlenge eller oppgradere den avtalen du velger.NÅR BØR JEG TEGNE EN SERVICEAVTALE?Det er lurt å tegne serviceavtalen ved kjøp av bilen eller frem til første service skal utføres. Da får du størst utbytte av avtalen. Du kan inngå avtalen senere, men tidligere betalte services blir ikke refundert.NÅR TRENGER MIN BMW SERVICE?BMW benytter seg av «tilstandsbasert service», det betyr at du unngår unødige servicebesøk og kun har bilen på service når det faktisk er nødvendig. Din BMW registrerer automatisk all relevant in-formasjon, som for eksempel antall start og stopp, utetemperatur og oljetemperatur. Når grenseverdi-ene nærmer seg, varsler bilen deg, via kombiinstrumentet i bilen, at det snart er tid for service. For bilen produsert fra og med juli 2013 vil bilen automatisk sende melding til selgende forhand-ler* om forestående service. Denne funksjonen kalles BMW Teleservice, og gjør at verkstedet kan planlegge servicen og avtale en passende tid med bileier før tidspunktet for service er overskredet.HVOR SER JEG SERVICEVARSLINGEN?Servicevarslingen kan sees i bilens kombiinstrument som et symbol i det tenningen settes på, der står det også gjensidende kjørelengde eller tid for servicen må utføres. Når tid for service nærmer seg blir symbolet for servicevarsling gult. Hvis tidspunktet er nådd eller overskredet endrer fargen på symbolet seg til rødt. Disse symbolene har litt forskjellig design i de ulike bilmodellene. Dette kan du se i bilens instruksjonsbok.BMW SERVICE INCLUSIVE AVTALE (BSD).GYLDIGHET.Avtalen gjelder fra bilens førstegangs registreringsdat(garantistartdato), og opphører så snart den avtalte tiden(antall år) eller kjørelengden (antall km) er nådd (avhengig av det som kommer først). Kjørelengde registreres hver gang bilen er inne på et autorisert BMW verksted.Grensene for både antall år og kjørelengde er absolutte, det betyr at avtalen ikke omhandler noen form for forpliktelse om et minste antall services som vil bli dekket.Husk at BMW har tilstandsbasert service, det vil derfor ikke være mulig å gi noe forhåndsvarsel om når avtalen går ut. Vi oppfordrer kunder med BSI-avtale til å følge med på om en avtale er i ferd med å gå ut, og eventuelt kontakte sin BMW sevicepartner for å kjøpe en forlengelse hvis det er ønskelig.En avtale kan oppdateres til lengre kjørelengde, flere år og/eller større omfang. Se også punktet under om forlengelse.Har avtalen gått ut er det mulig å fornye / forlenge med prisen tilsvarende mellomlegget mellom opprinnelig og ny avtale i opptil ni måneder etter at avtalen opphørte. En forlengelse må også legges inn for servicen skal utføres for å få dekket servicen på avtalen.FORLENGELSE.Det er ikke mulig å endre til en avtale med lavere verdi enn den opprinnelige avtalen. Din BMW Servicepartner vil være behjelpelig med å forlenge eller oppgradere en BSI-avtale.GJENNOMFØRING.En service kan ikke gjennomføres på BSI-avtalen før ser-viceintervall-indikatoren for den tilstandsbaserte servicen lyser gult på kombiinstrumentet. Men hvis bilen først kommer inn med gult varsel for én tilstandsbasert service (f.eks. olje- service), og det er mindre enn 5000 km igjen til en annen service (f.eks. kjøretøykontroll) skal utføres, så kan kjøretøy-kontroll- servicen utføres samtidig. For service som teller ned på tid, f.eks. skifte av bremsesveske, kan den kombineres med en annen service hvis varselet for servicen lyser gult eller hvis det er mindre enn 10 uker igjen til den skal utføres.Hvis det kommer opp varsel for lavt oljenivå ("Motoroljenivå under minimum, fyll på en liter olje") så kan en liter olje dekkes på BSI-avtalen selv om bilen ikke varsler for annen service. For å få en forlengelse hvis det er ønskelig på BSI må det være en aktiv avtale på bilen.Kjøper er ansvarlig for at service gjennomføres iht. overnevnte punkter.OMFANG.Avtalens omfang er i forhold til kjøpers valgte serviceavtale. BMW Service Inclusive eller BMW Service Inclusive Plus.Avtalen gjelder ikke for:Skade på lakk, karosseri, stofffangere og lister.Skade på innvendige deler / detaljer (interior, seter, dørtrekk, armstener og håndtak) Skadet glass (ruter, speil og frontlykter) Starbatterier: Støy (vind, pipetoner og raslende lyder) som ikke kan knyttes direkte til en defekt del.Lukt.Forbruksvarer (spylervæske og tilsetninger som f.eks. AdBlue).Drivstoff, forurenninger i drivstoffsystemet og følgeskader.Reparasjoner på kjøretøyet som er eierens / brukerens ansvar. (Motorskader på grunn av manglende oljeskift, overkjørte serviceintervall og deltagelse i fartslop eller kjøring på bane).Dekk, avbalanseringslodd og skader på hjul (følger).Endringer, modifikasjoner og justeringer (som ikke er nødvendig i forbindelse med utskifting av en del).Reparasjoner av uoriginalt tilbehør.
