Matric top achievers for 2024 are being celebrated across all nine provinces in South Africa, with Gauteng leading the pack according to recent reports from the Department of Basic Education. The national average plays a significant role in determining who makes it onto this prestigious list. To become a top achiever like these students, one must be proactive and diligent throughout the year. Downloading past exam papers for all subjects and studying in groups with teachers' guidance is crucial. Tutors and extra classes can also be beneficial. The names of the top matriculants are published annually by the Department of Education, with School Click having access to this year's list. Young Eastern Cape Matric Awardee Brings Pride to Mzansi A young woman from JS Skenjana High School in the Eastern Cape province has become a provincial awardee in the 2023/24 matric result awards, making her community and country proud. She had to face numerous challenges during her secondary school years, including Covid-19 and load-shedding, but changed her approach to studies, learning more about herself in the process. Her peers, parents, teachers, and community members all supported her, providing encouragement that helped her stay motivated throughout grade 12. When the matric results were released on January 18, 2024, social media was abuzz with congratulations and praise for the young Eastern Cape awardee. She was celebrated by many online users who expressed their admiration and support for her achievement, with some even offering words of wisdom and encouragement. The Eastern Cape Province has achieved impressive results in the 2023 National Senior Certificate (NSC) examinations, with the Class of 2024 exceeding expectations. The matric results surpassed the previous record by 3.58%, yielding an overall pass rate of 84.98%. Mr Luvuyo Mosana, CEO of the Eastern Cape Socio-Economic Consultative Council, attributed the success to the hard work and dedication of learners, educators, parents, and communities. The improvement in matric results over the past five years indicates a positive trend towards transforming education quality in the province. Targeted interventions have shown significant impact, particularly in underperforming districts. Mosana emphasized the need for learners to acquire skills relevant to emerging sectors such as smart agriculture, digital economy, and sustainable energy. Eastern Cape Premier Mr Oscar Mabuyane was proud to announce a notable increase in Bachelor passes from 30.01% in 2020 to 45.78% in 2024. This growth provides more opportunities for learners to access higher education. The province has also made significant strides in critical gateway subjects, with notable improvements in mathematics and physical sciences pass rates. Pass rates for Life Sciences have reached an impressive 83.0%, reflecting progress in STEM education. Quintile 1 schools, which previously struggled, saw a substantial increase in their pass rate from 64.9% to 83.5%. This milestone demonstrates the government's commitment to equitable education and ensuring no learner is left behind with adequate resources and support. The government has seen progress in rural areas with teacher development, learner support, and infrastructure improvements, leading to better student outcomes. Premier Mabuyane pledges continued investment in these initiatives to bridge the learning gap and ensure equal access to quality education for all children, regardless of their background.
